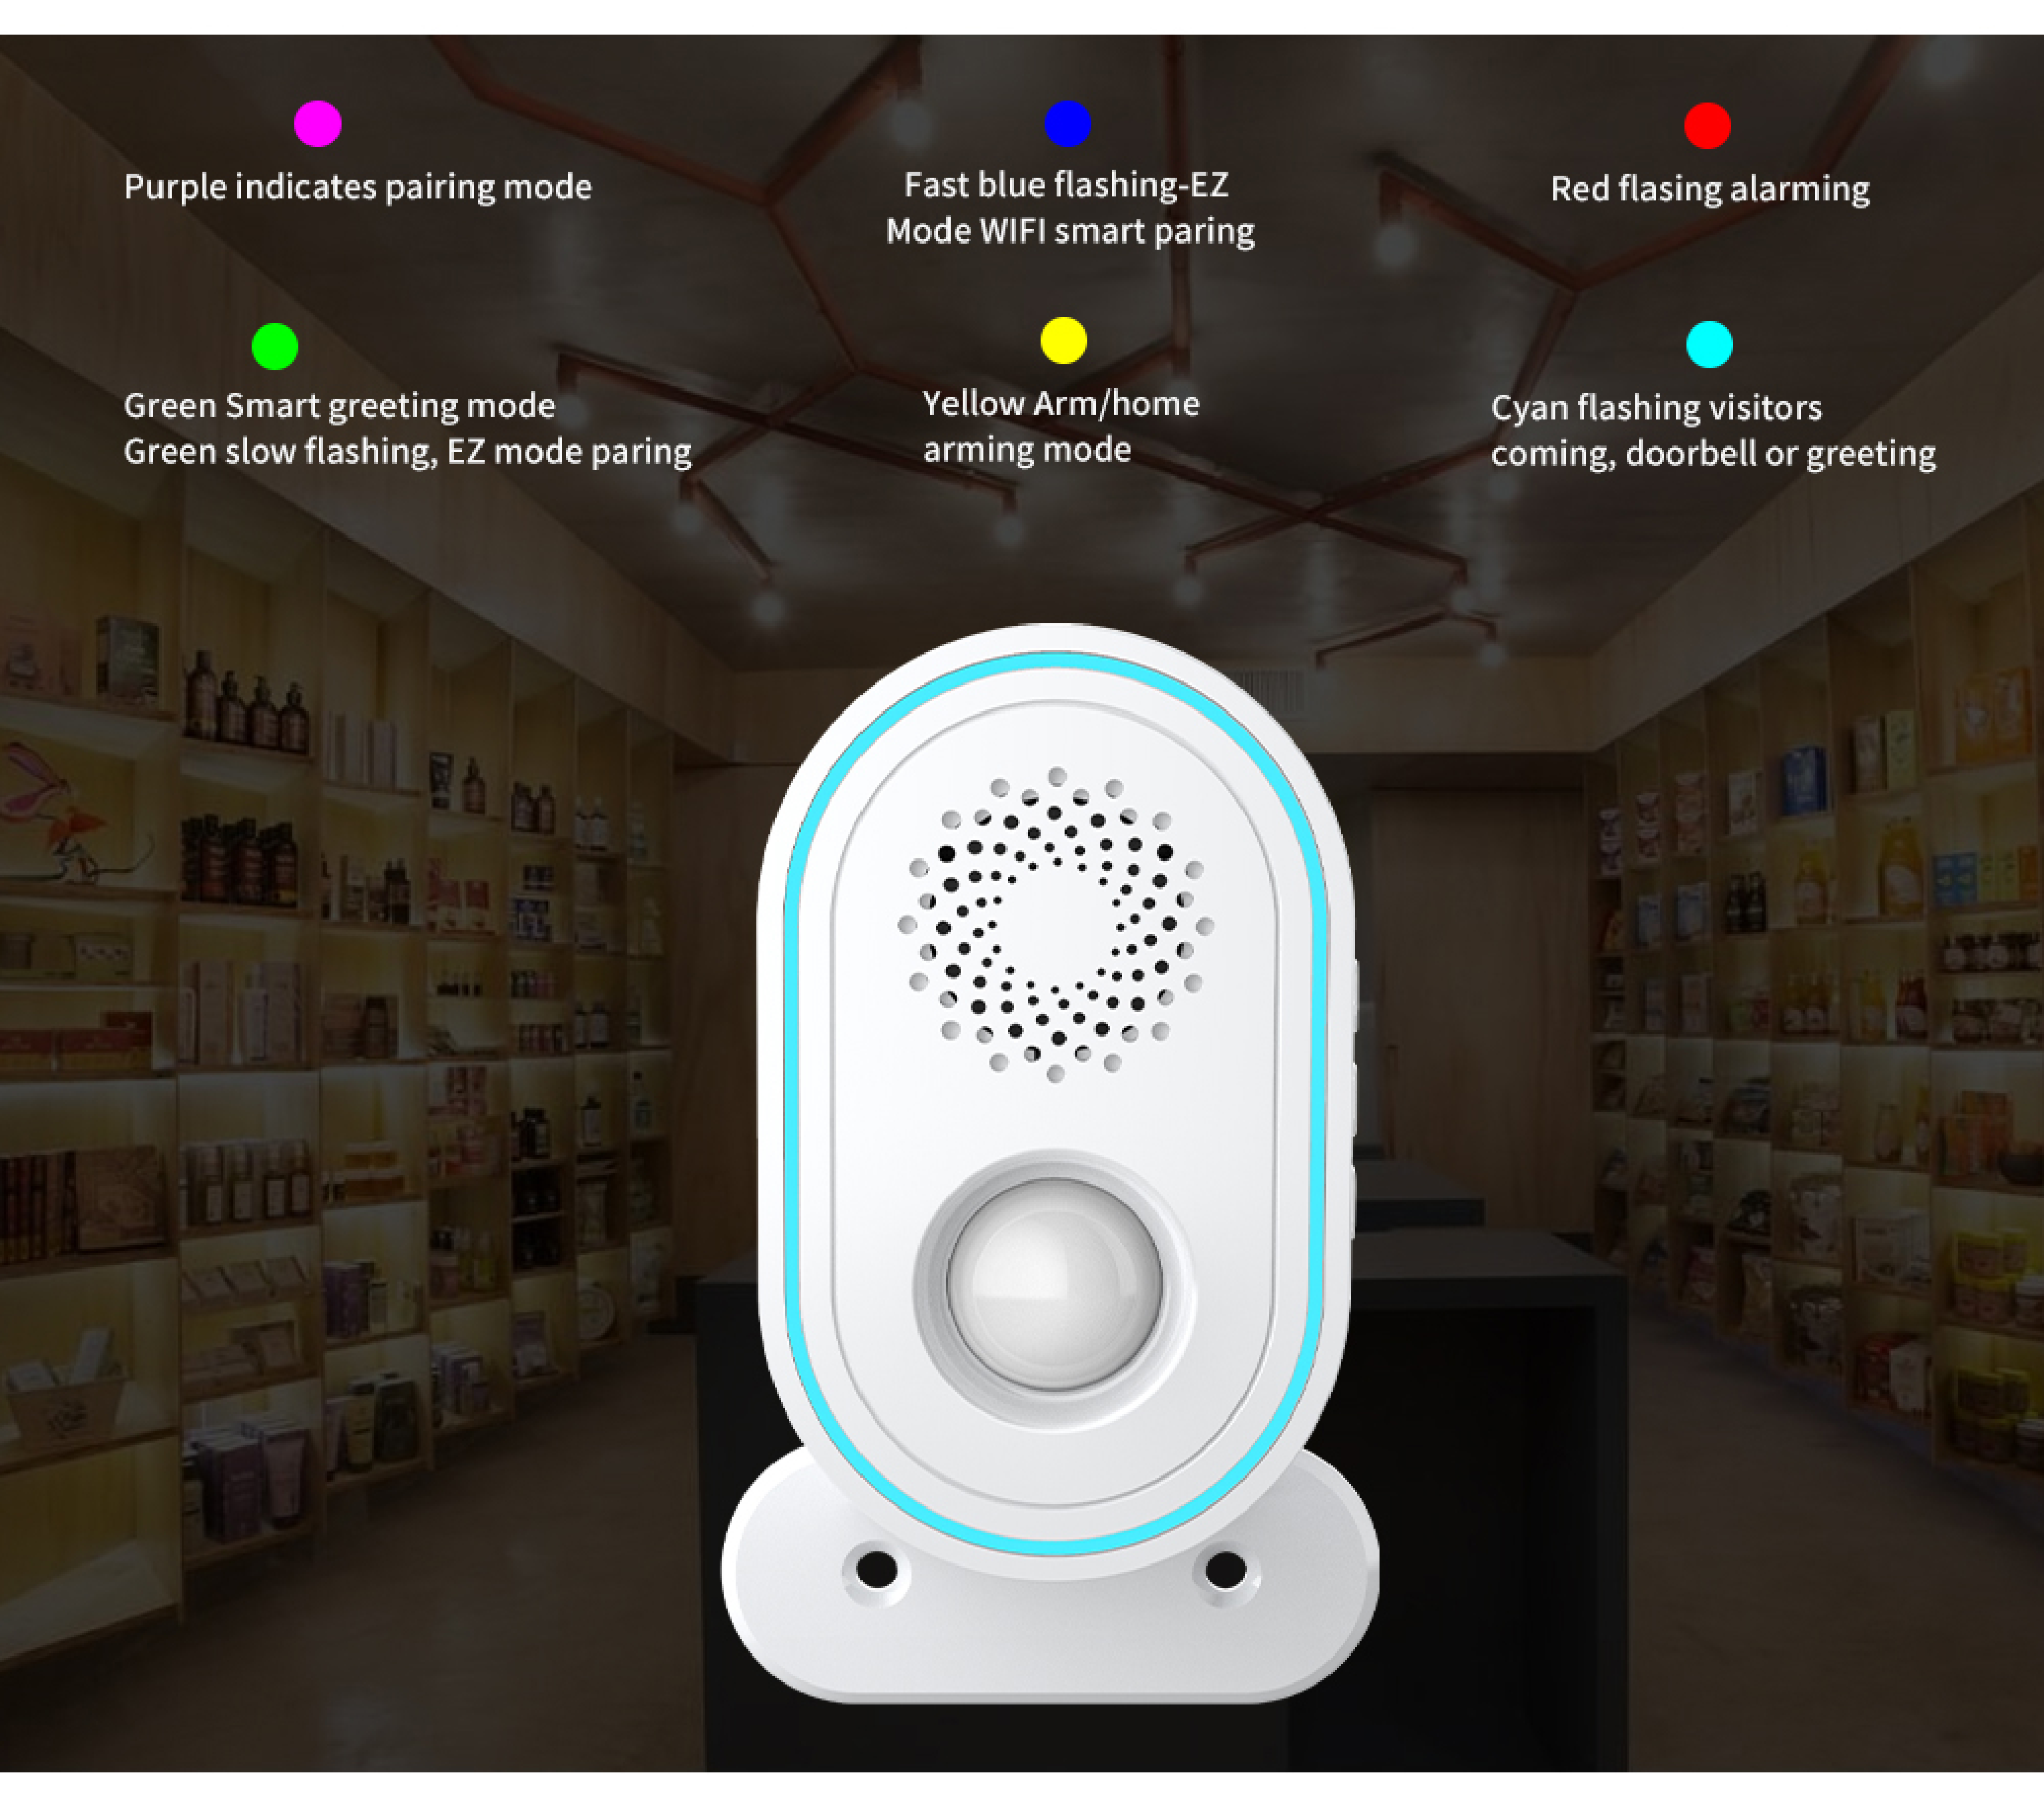
Indicator light

Different working conditions, showing different color lights



- ● Purple indicates pairing mode
- ● Fast blue flashing-EZ Mode WIFI smart paring
- ● Red flasing alarming
- ● Green Smart greeting mode Green slow flashing, EZ mode paring
- ● Yellow Arm/home arming mode
- ● Cyan flashing visitors coming, doorbell or greeting

Anti-theft alarm

The anti-theft alarm mode can be adjusted at night, which can effectively prevent thieves and ensure property safety.

When the sensor detects a person in the arming mode, the welcome prompt sound box lighting will be carried out at the same time, two reminding methods, to deal with different groups of people.

Applicable scene

It is suitable for supermarkets, restaurants, milk tea shops, offices, clinics, hotels, stations, etc
